

The University of Arizona
Applied Behavioral Health Policy Division

**A division of The University of Arizona,
Eller College of Business and Public Administration,
School of Public Administration and Policy.**

Values

The Applied Behavioral Health Policy Division values: Excellence, Teamwork, Integrity, Respect, Community, and Commitment.

Mission Statement

Improving the world for people with behavioral health disabilities by collaborating with community agencies and policy-makers to identify and implement best treatment practices.

We accomplish this mission by:

- Developing and evaluating innovative service practices
- Disseminating the most current information on best practices through: designing and conducting in-service seminars, distance learning, conferences, providing consultation and technical assistance to local, state and regional agencies; and developing publications and software.
- Fostering collaborative partnerships on the local, state and regional level.
- Creating meaningful involvement of individuals with mental illness and addiction disorders.
- Utilizing the latest in technological advancements.
- Promoting a work environment that encourages staff excellence and personal growth.
